

Meeting Minutes Sprint 4 Meeting 3

FC-soen341projectW2024

Date: April 1, 2024

Duration: 2 hours

Meeting Mode: Online

Members Present:

- Atai
- Michael Shokralla
- Mamadou
- Idris
- Lina Taalba
- Shanvin Luo

Online 9PM

Meeting Agenda

- Development Progress Check and Problem Solving

Discussion Points:

- **API Integration Update:** Mamadou reported successful integration of the Traffic Conditions API, showcasing a demo of traffic data displayed in real-time on the navbar.
- **Backend Challenges:** Michael shared challenges faced with the review system's backend, particularly with handling high volumes of data. Proposed solutions included optimizing database queries.
- **UI Implementation:** Lina demonstrated the implemented UI for both features, seeking final approval before proceeding with user testing.

Next Steps:

- **Performance Optimization:** Shanvin to work on backend optimizations for the review system, aiming to improve response times and scalability.
- **User Testing Preparation:** Idris to prepare a user testing plan for both features, focusing on usability and integration with the overall system.
- **Documentation:** All team members to update project documentation with details on the development process, API integration, and UI design decisions.
